- Before including the “Hidden Homeless” (homeless people who would not have been seen in the street or shelter count) homelessness in the Los Angeles Continuum of Care (LA CoC) increased to 35,524 men, women and children (+2.6%) in the street and shelter count over 2011 estimates
- When estimates for the Hidden Homeless are included, the LA CoC number increases to 53,798 people, an increase (+8,376 people or +18.4%) versus the 45,422 counted in 2011
- Looking at the totals without the Hidden Homeless, SPA 1 and SPA 2 had the biggest increases with +49.7% and +30.0%, respectively; the biggest decreases were in SPA 7 and SPA 8 with -24.3% and -18.1%
- When factoring in Hidden Homeless numbers, SPA 1 had the biggest increase followed by SPAs 2, 5, 6 and 3; SPAs 7, 8 and 4 demonstrated decreases

## Key Findings – Service Planning Areas

### Family Homelessness

LAHSA

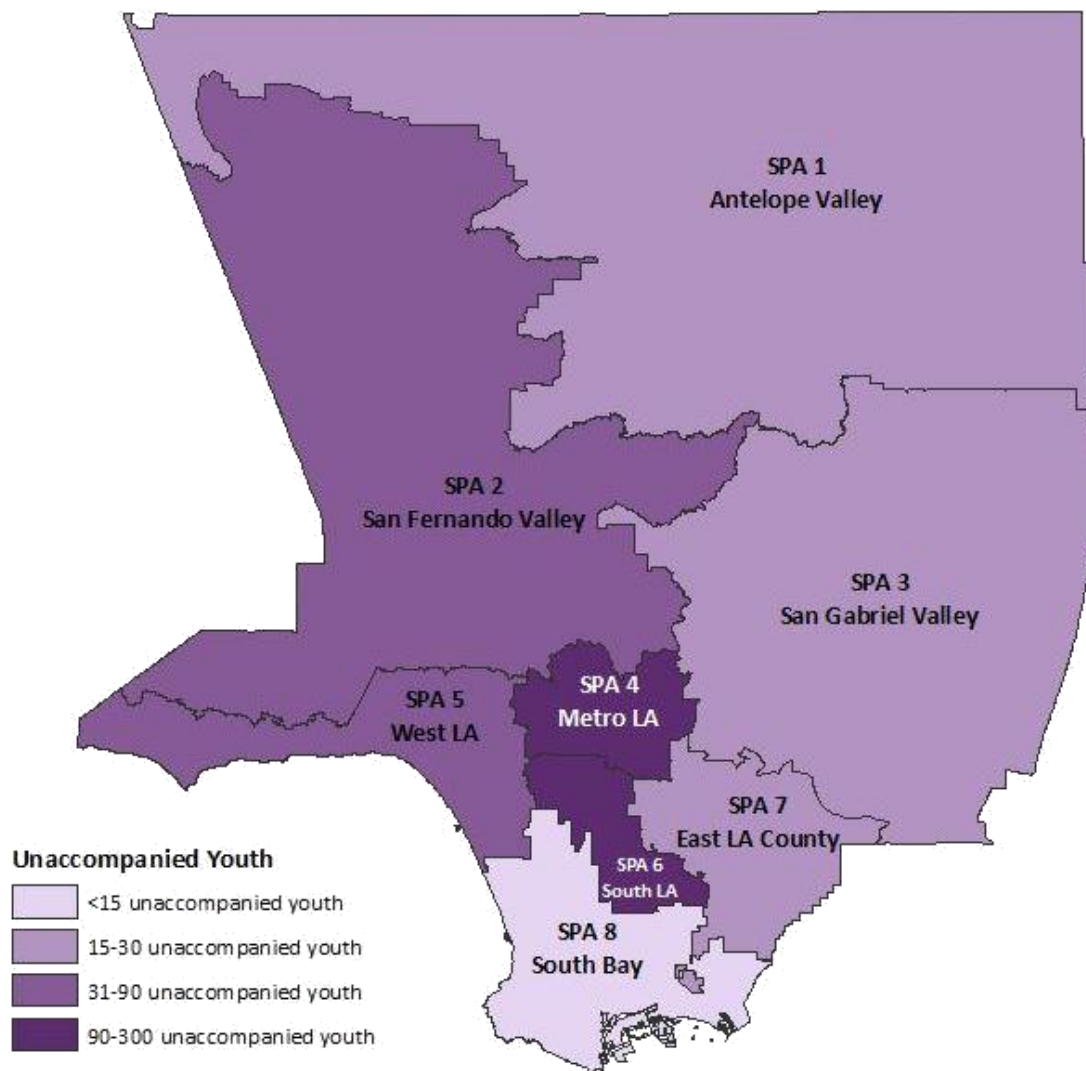

# 2013 Greater Los Angeles Homeless Count

## Key Findings – Service Planning Areas

### Unaccompanied Youth Homelessness

LAHSA

- For the purposes of HUD reporting, CoCs must be able to report separately on unaccompanied homeless children who are under age 18.
- Defining youth as under age 18 allows HUD to use the same definition for all reporting related to homeless programs. Transition Age Youth (TAY), or youth between ages 18-25, are counted as part of the Single Adult population.

# 2013 Greater Los Angeles Homeless Count

## Key Findings – Service Planning Areas

### Homelessness by Household Type

LAHSA

The LA CoC had an overall increase in homelessness (18.4%); there were increases in 5 of the 8 SPAs with the biggest increase in homelessness in SPA 1 (+393%) and decreases in SPAs 4 (-10%), 7 (-49%) and 8 (-14%)

- Single Adults biggest increase in household types in 5 of the 8 SPAs with the biggest increase also occurring in SPA 1 (+636%);
- Family Members decreased in every SPA except for SPA 2 (+17%); biggest decreases were in SPAs 6 (-50%), 7 (-44%) and 8 (-42%)
- Unaccompanied Youth increased in every single SPA with the biggest increases in SPA 7 (+900%), SPA 1 (+317%), SPA 3 (+214%) and SPA 5 (+211%)

# 2013 Greater Los Angeles Homeless Count

## Key Findings – Service Planning Areas

### Homelessness by Subpopulation

LAHSA

- Due to the increase in the total homeless number, Chronically Homeless Individuals increased (+25%); however, the CoC noted decreases in Chronically Homeless Family Members (-55%), People with HIV/AIDS (-54%), and Veterans (-23%);
- SPAs 1 and 2 experienced the greatest increases; SPA 4 had decreases in every subpopulation followed by SPA 7
  - SPA 1 had major increases of over 600% in Substance Abuse (+971%), Chronically Homeless Individuals (+941%), Veterans (+818%), Mentally Ill (+697%) and Physical Disabilities (+795%)
  - SPA 2 had increases of over 100% in Survivors of Domestic Violence (+180%) and Substance Abuse (+109%)
  - SPA 4 was the only SPA to have a decrease in every subpopulation with major decreases occurring in People with HIV/AIDS (-83%) and Chronically Homeless Family Members (-58%)
  - While SPA 7 had a decrease in almost every subpopulation, however, there was an increase in People with HIV/AIDS (+300%)

## Key Findings – Supervisorial Districts

### Unaccompanied Youth Homelessness

LAHSA

- For the purposes of HUD reporting, CoCs must be able to report separately on Unaccompanied Youth, homeless children who are under age 18.
- Defining youth as under age 18 allows HUD to use the same definition for all reporting related to homeless programs. Transition Age Youth (TAY), or youth between ages 18-24, are counted as part of the Single Adult population.

## Key Findings – Supervisorial Districts

### Homelessness by Household Type

LAHSA

- The Los Angeles CoC had an overall increase in homelessness (+18%); there were increases in 3 of the 5 SDs with the biggest increase in homelessness in SD 5 (+216%) and largest decreases in SDs 1 (-28%) and 2 (-7%)
  - Single Adults increased in every SD except for SD 1 (-32%), with SD 5 having the biggest increase (+293%)
  - Family Members decreased in every SD except for SD 3 (+8%); biggest decrease was in SD 2 (-47%)
  - Unaccompanied Youth increased in 4 of the 5 SDs with the biggest increases occurring in SD 5 (+442%) and SD 2 (+250%). SD 4 is the only SD with a decrease (-19%)

## Key Findings – Supervisorial Districts

### Homelessness by Subpopulation

LAHSA

The Los Angeles CoC had increases in Chronically Homeless Individuals (+25%) and decreases in Veterans (-23%), People with HIV/AIDS (-54%), and Chronically Homeless Family Members (-55%); SD 1 had decreases in every subpopulation followed by SD 2, while SD 3 and SD 5 both had major increases in every subpopulation

- SD 1 had decreases in every category with People with HIV/AIDS (-75%), Chronically Homeless Family Members (-68%), and Survivors of Domestic Violence (-58%)
- SD 2 had big decreases in Chronically Homeless Family Members (-66%) and People with HIV/AIDS (-62%),
- SD 3 had increases in every category with the largest increases in Survivors of Domestic Violence (+60%), Substance Abuse (+53%) and Chronically Homeless Individuals (+42%)
- SD 5 had major increases of over 200% in Veterans (+223%), Survivors of Domestic Violence (+235%), Chronically Homeless Individuals (+242%) , Substance Abuse (+349%) and Mentally Ill (+363%)
